

R Permuted Linear Statistic

```
graph LR; A[R Permuted Linear Statistic] --> B[C Permuted Linear Statistic]; A --> C[ncol]; A --> D[nrow];
```

The diagram illustrates a branching structure. A central node on the left, labeled 'R Permuted Linear Statistic', has three outgoing arrows pointing to three separate nodes on the right. The top node is 'C Permuted Linear Statistic', the middle node is 'ncol', and the bottom node is 'nrow'.

C Permuted Linear Statistic
